📅 1 Year 11 Months

## Education

2021, Full Time

**PG Diploma, Institute for Advanced Computing & Software Development,** Pass

2019, Full Time

**B.Tech/B.E., SAVITRIBAI PHULE PUNE UNIVERSITY,**

## Work Experience

2021 - 2023

Associate Software Engineer

**Innoplexus Consulting Services Pvt Ltd**

Having an overall 1.11 years of experience in the IT industry I have excelled as an Associate Software Engineer, specializing in meticulous backend development. My expertise lies in shaping and implementing Node.js-based backend APIs, collaborating within Agile cross-functional teams to uphold elevated code quality standards, and ensuring timely deliverables. I have championed the development of Swagger REST-based APIs, demonstrated proficiency in GIT Version Control, and showcased a robust understanding of unit testing using frameworks like Mocha and Chai. My contributions have led to a 37% improvement in product experience through code examination, testing, and active participation in Code Reviews. Proficient in executing CRUD operations on MongoDB, I am an enthusiastic team player who works efficiently to meet tight deadlines and actively contributes to the success of the company.

## Projects

644 Days

**Neuria**

NEURIA is an app for neurological disease patients and caregivers, providing accurate information on therapies, clinical trials, and experts based on their disease profile. It allows users to discover treatment options, access clinical trials, choose leading neurologists, and get matched with a similar patient.

734 Days

**Curia**

CURIA is an app designed to assist cancer patients in their treatment journey by providing accurate information on therapies, clinical trials, and experts based on their cancer profile. It offers features like discovering treatment options, accessing clinical trials, choosing oncologists, matching patients, and receiving personalized resources.
